Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Obviousness Double Patenting Rejection

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

1. Claims 1-35, 40-52 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-35 of allowed US application 09/734,981 (pending US Patent Number to be assigned). The US application 09/734,981 teaches a second service switching point connected to called line number and comprising a trigger response to a no-answer status and the called line number is not subscribed to the voice messaging system. It also teaches a signal transfer point adapted to second service switching point, a service control point adapted to communicate with said signal transfer point, a service node connected to second service switching point wherein the second service switching point sends a query to said service control point responsive to the trigger, said service control point commands the service node to prompt for permission to leave a message when the called line number has a no-answer status. The US application 09/734,981 failed to teach the trigger responsive to a busy status of the called line number. However, both "no-answer" and "busy" line status are well known to one skilled in

the art and it is obvious to modify US application 09/734,981 so that the trigger is responsive to a busy status as claimed in the current application.

Claims 1-35, 40-52 would be allowable if Applicant timely files a terminal disclaimer in compliance with 37 CFR 1.321(c) to overcome the rejection.

Conclusion

2. The prior art made of record and not replied upon is considered pertinent to applicant's disclosure.

- Garner et al (US: 5475737) teach toll saver for centralized messaging system.
